

# Because...

There are so many reasons why **Dream Report** needs to be a part of every automation system...

Because... Your managers need an easy to use KPI dashboard

Because... Your products need quality reports for release

Because... Your risk needs to be reduced through genealogy tracking

Because... Your compliance reports shouldn't be a distraction

Because... Your company wants to be as competitive as possible

Because... Your manual data entry needs to be easy and accurate

Because... You want to interact with data on mobile devices

and because... You don't want to waste time creating reports

**Dream Report** makes information access so easy, you'll have all the reports you want and not just the reports you need...

## Ocean Data Systems – Taming the Ocean of Data
